## Competent Systems in Early Childhood Education and Care

Sarajevo (BiH), October 22<sup>nd</sup> – 24<sup>th</sup>, 2026

We are pleased to invite you to the 3<sup>rd</sup> International Scientific and Professional Conference

### **KOMPAS - Competent Systems in Early Childhood Education and Care,**

which will be held from 22 to 24 October 2026 in Sarajevo (Bosnia and Herzegovina). The conference is organized by the Faculty of Education, Josip Juraj Strossmayer University of Osijek, the Faculty of Education, University of Sarajevo, and Fondazione Reggio Children – Centro Loris Malaguzzi ETS.

The central theme of the KOMPAS 2026 Conference is *professional identity in the context of competent systems*, with a particular focus on the professional identity of ECEC educators and other stakeholders within the ECEC system.

Professional identity is viewed as a dynamic, contextual, and relational process, rather than as a static role defined by qualifications or a job description. Through dialogue with diverse perspectives brought by the keynote speakers—ranging from the Reggio philosophy (Cristian Fabbri), pedagogy of participation and critical reflection (Edita Slunjski, Ida Somolanji Tokić, Tijana Borovac), to local and political challenges of professional practice within a social context (Dženeta Camović) — KOMPAS 2026 opens a space for reflecting on identity not only as an individual form of professional self-understanding, but also as a collectively constructed value within competent systems. In this context, professional identity is not approached as the question "Who am I?", but rather as "What are we becoming together?"—through relationships, reflection, and collective action.

Such an approach also opens a series of provocations worth careful consideration: Who has the right to define professional identity—practitioners, educational policy, or the academic and scientific community? Is a professional someone who possesses specific competencies, or someone who co-creates them in collaboration with others? Can professional identity exist without professional autonomy? Can it exist if it is not recognized by the system?

These and many other themes and questions will be discussed at KOMPAS 2026 in Sarajevo.

Venue: **Sarajevo, Bosnia and Herzegovina.**

Participation: It is possible to participate in the conference with an oral presentation or without a presentation as an attendee.

Official languages of the conference: Croatian, Bosnian, Serbian, and English.

Official script of the conference: Latin alphabet.
